

SURROUNDSCOPE™

The Next Frontier Of Minimally Invasive Surgery

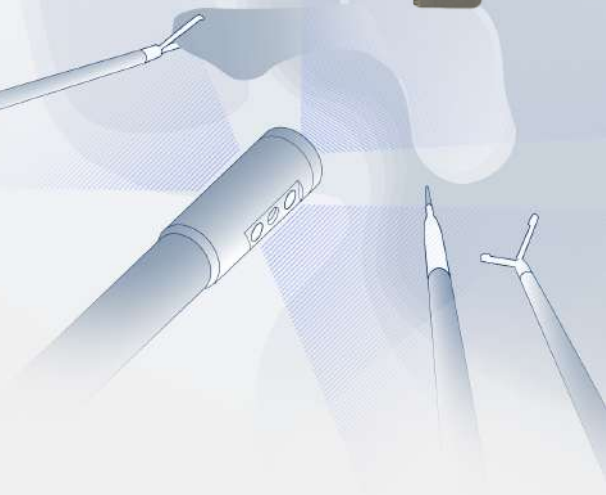

FDA Cleared
Fully Commercial

SEE **MORE** THAN EVER

The SURROUNDSCOPE™ is a pioneering laparoscopic system, enabling surgeons a new, safer, and more efficient way to operate.

The revolutionary 270° wide Field of View technology reduces 'off-screen' injuries, provides surgeons unparalleled visibility, and substantially improves patient outcomes.

SAFER

96.9% OF SURGEONS
CLAIM THE SURROUNDSCOPE™
IS SAFER¹

& MORE EFFICIENT

A decrease of up to **31%**
in patient hospitalization
days and 23% in
Laparoscopic Duration.

100% Fog Free and
military grade
'See Through Smoke'
capabilities.

¹ Based on 65 surgeons' captured testimonials

² Interim data of internal clinical study, Bnai Zion Medical Center (Israel)

BREAKING THE LIMITS

270Surgical has been tackling head-on the three major problems of MIS - **BLIND SPOTS** due to limited visibility and inefficiencies due to **FOG** and Surgical **SMOKE**.

"IT WILL BE THE NEW STANDARD-OF-CARE, AND WILL PROBABLY BE ENFORCED BY THE ADMINISTRATION IN THE FUTURE BECAUSE THIS IS MORE SAFE. I HAVE NO QUESTION ABOUT IT."

Dr. Santiago Horgan

Chief of MIS surgery, UCSD
Director, Center for the Future of Surgery
